

COUNTING TO INFINITY

1

Lyrics and Music © 2010 by Bill Roper

(Chorus)

Asus2 **Em7** **Asus2** **Em7**
Somewhere I'm a pirate and somewhere I'm a king.
G **D6** **E7**
Here and now I'm happy just to have the chance to sing,
 Asus2 **Em7** **Asus2** **Em7**
For that king might be a tyrant and that pirate lost at sea,
G **D6** **E7** **Asus2 Em7 x2**
But in the world I'm living in, I'm glad you're here with me.

Asus2 **G** **D6** **Dm6**
They say that universes lie like numbers on a line
 Asus2 **Am7/G** **Dsus2** **Fmaj7**
So I'm counting to infinity, one number at a time,
 Asus2 **Cmaj7** **D6** **Dm6**
And if I had a ship to sail upon the quantum tide,
 Asus2 **Cmaj7** **Dsus2** **Fmaj7**
Would I find another world where you are standing by my side?

How large is the infinity that holds another you?
And how much further must I count for it to hold me too?
"Improbable, yet possible," proclaims the voice of Chance
And he calls the steps as worlds pass by caught in the cosmic dance.

(Bridge)

D6 **Dm6** **Asus2**
I'm counting to infinity, but I do not know the size
 D6 **Dm6** **Asus2**
And they claim all things are possible and I swear they're telling lies.
 Am7/G **Dsus2** **Asus2**
The worlds we might imagine are not worlds that must be true
 Am7/G **Dsus2** **E7/G**
And I would not be the me lost in a world that's missing you.

I've counted to infinity once, twice, and thrice again
And I've found you and I've found me on worlds beyond our ken,
But never both together though infinity is wide,
So I'm counting back to zero where I'll find you by my side.

Asus2 Em7 **Asus2 Em7** **Asus2 Em7** **Asus2**

Infinity is a very large number. Sometimes, it may not be large enough.
