

# DANCE BY STARLIGHT

1

Lyrics and Music © 2005 by Bill Roper

**F#m/D**                    **Em/D**  
I look at you, you look at me.  
**Dmaj7**                    **Em/D**  
Never imagined how happy we'd be.  
**F#m/D**                    **Em/D**  
Standing together as lovers and friends,  
**Dmaj7**                    **G**                    **A**                    **D**  
Reach for your hand, starting over again.

**D**                    **G**                    **A**                    **D**  
Never thought that I could feel so happy and so free  
**D**                    **G**                    **E7**                    **A**  
As the way I find I feel with you standing close to me.  
**G**                    **A**                    **D**                    **Bm**  
Never thought we'd find the strength or will to take the chance,  
**G**                    **A**  
And I hear the music rising for the dance.

(Chorus)  
**Dmaj7**                    **Am7**  
So dance by starlight.  
**Dmaj7**                    **Am7**  
Dancing in a dream tonight.  
**Dmaj7**                    **Am7**  
Dancing as our hearts take flight,  
**G**                    **Em7**                    **A**  
Knowing everything's all right.

Never knew that I could feel the way you make me feel.  
Never knew that anything so wonderful was real.  
Looking deep into your eyes, I find that I'm entranced  
As we're moving to the rhythm of the dance.

(Chorus)

I thought it was impossible - I guess that I was wrong,  
Dancing in the dark with you and listening to our song.  
So here's a happy ending and a start to our romance  
As we gently sway together in our dance.

(Chorus twice)

I look at you, you look at me.  
Never imagined how happy we'd be.  
Standing together as lovers and friends,  
Reach for your hand, starting over again.

**D**                    **G**                    **A**                    **D**  
Reach for your hand, starting over again.

*Gretchen had to work (her bank got bought and they were converting to the new system), so she sent me to England for Dixseption without her. Of course, I had to bring something back for her, and the wonderful thing about a new song is that it doesn't need to be declared at Customs.*
