

Lyrics: Gretchen, Bill, and Katie Roper  
Melody: Bill Roper  
Copyright 2014

**Mrs. O'Brien**

**G**                    **Em** **C**                    **D**  
Mrs. O'Brien says growing things rule.  
**C**                    **G**                    **Em**                    **D**  
We see it in the garden, let's try it here in school.  
**C**                    **D**  
They put down roots, we reach for the sun.  
**G**                    **Em**  
Our learning adventure's just begun.  
**C**                    **D**                    **G**  
Let's grab a book to read and have some fun.

(Chorus)

**D**  
Please be a Bucket Filler.  
**C**  
Don't be a Bucket Spiller.  
**Am**  
Change your color and stop this fuss  
**D**                    **D7**                    **G**  
And don't let the pigeon drive the bus.

Mrs. O'Brien says that math is cool.  
It isn't hard to understand once you've got the tools.  
Counting up the number line,  
As sure as ten comes after nine,  
Addition and subtraction's going fine.

Mrs. O'Brien says reading is neat.  
Every Friday afternoon, we get a special treat.  
We're thinking hard about every clue.  
Our Mystery Reader might be you,  
Bringing us a story that's brand new.

Mrs. O'Brien says we should be good.  
We're learning to be better than we ever thought we could.  
It's better to be nice than mean  
And color up your days bright green.  
Our Bucket Party's going to be keen.

(Spoken)

Can I please?  
But I have 100 tickets.

Come on, really?  
Grumble...  
Can I have a hot dog?
