### Snowflakes

**Am G F**  
Don't know how it happened.  
**C D E7**  
What fool set the superpox free?  
**Am G F**  
Death sent by a madman  
**C D E7**  
And the only survivors are the people like me.  
**F E7 Am G F**  
No one under fifty ever had a chance to survive  
**C D**  
'Cause they never got the scar that we wear on our arms  
**E7**  
That's the only thing that keeps us alive.

(Chorus)

**Am G D F G Am**  
And I'm searching for snowflakes, hoping we've a chance to survive.  
**F G**  
Looking for the heirs to the whole human race  
**E7**  
Suspended in a nitrogen tide.  
**F E7**  
And I'm racing the clock now  
**Am G D**  
As I'm running past the bodies inside  
**Am G F**  
'Cause we're counting down to the end of the world  
**G E7**  
And I don't want to say suicide  
**Am G F E7 Am G F E7**  
Is the reason we died.

All the children are dead now.  
We never thought we would see pox again.  
I remember they said how  
It was the first disease that was beaten by men.  
Old men and old women too old to have a child of their own.  
We've got one last chance to keep the systems alive  
So we won't have to die all alone.

(Bridge)

**F** **Am**  
Snowflake babies,  
**G** **Em** **Am**  
In vitro made and then frozen away.  
**Dm** **Am**  
Too many maybes.  
**G**  
Can we find them in time?  
**Em7**  
Keep the systems on line?  
**E7**  
Teach old wombs to rewind  
**Am** **G F E7**  
So they are saving the day?

Old men saving the tech now  
Taking the place of the youngsters that died.  
Old women inject now  
Hormones keeping those babies inside.  
And there's never enough time for raising up the children of men,  
But I promise you, they will all wear the scar  
'Cause we're never gonna do this again!

(Chorus to coda)

**Am** **G** **F**  
Yeah, we're counting down to the end of the world  
**G** **E7**  
And I don't want to say suicide  
**Am** **G F E7 Am G F E7 Am G F E7 Am**  
Is the reason we died.
