### Taking Down Your Names

**Em7**                      **Asus2**  
There's power in your name.  
**Em7**                      **Asus2**  
There's magic there that I can tame  
**Cmaj7**                      **Am7/G**  
And though you hold it close to you,  
**D6**                      **B7**  
I'm creeping closer still.  
**Em7**                      **Asus2**  
And I will take control.  
**Em7**                      **Asus2**  
I'll steal your name and steal your soul.  
**Cmaj7**                      **Am7/G**  
It isn't all that hard to do  
**D6**                      **Em7**  
And I have got the will.

(Chorus)

**Asus2**  
I'm taking down your names.  
**Em7**  
One by one, they'll fall.  
**Asus2**  
I'm playing at my games.  
**Cmaj7**                      **D6**                      **Em7**  
I'll own you when I've taken down them all.

You've got names to spare,  
One name here and one name there,  
Bound together in a web  
That all leads back to you.  
It isn't hard to see  
That every name's another key.  
And I will flow and you will ebb.  
You'll never have a clue.

(Bridge)

**Asus2**

Names that you no longer know.

**Em7**

Names you haven't used for years.

**Asus2**

Helpless, watch my power grow.

**B7**

I'm the sum of all your fears.

Names and numbers dance.  
I won't give you a second chance.  
What I want is what you've got  
And what you've got I'll take.  
I'm erasing every line.  
All that once was yours is mine.  
I am you and you are not  
And you will never wake.

(Chorus twice)

**Cmaj7**

**D6**

**Em7**

I'll own you when I've taken down them all.
