

End of the Line

(Chorus)

Em **E7sus4** **Em** **E7sus4**
I'm chasing after starlight, I'm diving through the black.
Asus2 **Cmaj7**
I've learned to love the space between, but it never loves me back.
A7/D **Dsus2**
So I'm waiting for the time when I'll feel fine
 Em **E7sus4** **Em** **E7sus4**
At the end of the line.

Em **E7sus4**
I've gone halfway to anywhere.
Am7
I'm hanging in the void,
D
Renewing an old love affair
C/G
That's keeping me employed.
Em **E7sus4**
And home should be before me
Am7
And distant stars behind.
D
The equations all ignore me
B7
With solutions undefined.

We're lost between dimensions
On a jump gone wild and free.
Got to hold us in suspension
Till computer finds the key,
For I am more than pilot -
I am fuel to feed the drive.
Through a sky gone ultraviolet,
I must get us home alive.

(Bridge)

Asus2

The pain is like my oldest friend

Am7

I did not want to see.

D

Will the program reach its end

Em

Before sleep sets me free?

Asus2

To fall with no solution

A7

Means the ship is surely lost.

Am7

There's no hope for substitution -

B7

I'm the one to pay the cost.

The computer's whining madly.

The solution's gone to hide.

"It's all right," she told me sadly

And I know the damned thing lied.

I'm the pilot of this starship

In a universe of pain.

As long as I can keep my grip,

It's here we will remain.

(Chorus twice)

Em E7sus4 Em E7sus4

At the end of the line.

Em E7sus4 Em E7sus4 Em

At the end of the line.
