

### Marvelous Me

(Chorus)

**A** Listen up, boys. **A7** Listen up, girls.  
**D** We're living in the best of all possible worlds **Dm6**  
**E7** So throw out your books of history,  
**D** 'Cause reality's not what it used to be. **E7**  
**D** There are wonders as far as the eye can see **Adim7**  
**E7** All massaged by the mind of marvelous me. **D**

**A** Weave and spin. **A7** Cut the thread.  
**F#m7** If the tapestry unravels, well, we'll end up dead, **B7**  
**Bmaj7** But that's not the way I'm gonna make my plan, **E7**  
**Bmaj7** 'Cause I've got the power to play destiny's hand. **E7**  
**D** The cards that we are holding may appear to be a wreck, **A** **A7**  
**D** But I've learned to deal a couple from the bottom of the deck. **Adim7** **E7**

Reach through time. Rearrange.  
The secret is in knowing what you need to change.  
I'm just the only one who understands  
With power comes the wisdom that the job demands.  
You know I do not do this to be mean,  
But the consequence of inaction is quite easily foreseen.

(Bridge)

**D** The world is so much better than it's been. **E7** **A** **A7**  
**D** I'm wiping out the evil - I'm wiping out the sin. **Adim7** **E7**  
**D** And I will keep on working just as long as I am able. **E7** **A** **A7**  
**D** The reality I'm building's just a little bit unstable. **Adim7** **E7**

Easy as one, two, three,  
Rewriting all the laws of probability.  
The source of the power is a mystery,  
But I'm the hand rebuilding all of history.  
The world I have created is a lovely work of art,  
But I have to keep on patching or it's gonna fall apart.
