

Oz

**C**                    **Am7/G**  
I want to look into your eyes  
**Dm7**                    **G**  
And promise I won't tell you lies  
          **C/G**            **Am7/G**            **Dm7**                    **G**  
Like every other humbug wizard passing through the fair.  
**Dm7**                    **G**  
And hope that you might take a chance  
          **C/G**            **Am7/G**  
On understated elegance,  
          **Dm7**                    **Dm**                    **G**                    **C/G**  
A conveyance of my own design to take us anywhere.  
          **Dm7**                    **G**  
Come fly with me through space and time.  
**C/G**                    **Am7/G**  
I'll conjure up a bit of rhyme  
          **Dm7**                    **G**  
And maybe summon up a tune  
          **Em7**                    **Am7/G**  
To sing as we sail past the moon.  
**Dm7**                    **G**  
As we're sitting sharing dreams,  
          **E7**                    **Am7/G**  
Reality's not what it seems.  
          **Dm7**                    **G**  
My balloon can carry two.  
          **Dm7**                    **G**                    **C/G**    **Am7/G** **Dm7** **G**  
Come fly with me so I can fly with you.

Beneath the canopy unfurled,  
We'll drift between the different worlds  
Where nothing is impossible that hasn't happened yet.  
And hope that it is not amiss  
If I lean over for a kiss  
That I've held in abeyance since the moment that we met.  
Come fly with me through time and space.  
I'll conjure up some better place  
And summon up your heart's desire  
As we sail safe past lakes of fire.  
From here to there and back again,  
We're sailing off to anywhen.  
My balloon can carry two.  
Come fly with me so I can fly with you.

(Bridge)

**Dm7**                    **G**                    **C/G**                    **Am7/G**  
I'm not like any other wizard that you might have seen,  
**Dm7**                    **G**                    **Em7**                    **Am7/G**  
For I have learned my lessons in a land of emerald green.  
**Dm7**                    **G**                    **E7**                    **Am7/G**  
And though I once was humbug, I am better than I was  
**Dm7**                    **Dm**                    **G**  
And I have learned to do the things an honest wizard does.

I hope that you might venture soon  
To take a ride in my balloon.  
I'll cast away the moorings and we'll sail into the sky.  
And I will promise this to you:  
My wizard's word is finally true,  
'Cause even an old humbug can someday learn to fly.  
Come fly with me to anywhere.  
I'll conjure anything you dare  
And summon up some worthy cause  
For us to journey back to Oz,  
Where reality's another scene  
All colored up in emerald green.  
My balloon can carry two.  
Come fly with me so I can fly with you.

**Dm7**                    **G**                    **C/G**  
Come fly with me so I can fly with you.
